The Sodergren Fund is designed to give current members who are full-time, career ski and snowboard instructors in the Western Region of PSIA-AASI an opportunity to attend a full immersion, multi-day education event that will enhance their personal and professional growth

The scholarship committee will judge candidates on their experience and desire to become long-term master teachers. The candidate's application should explain why they want to become master teachers and why they want to continue teaching for many years to come. A candidate should have been teaching at least 60 days per season for the past three seasons or at least 30 days per season for the last five years, and they should be an active member of the Western Region. The committee may make individual exceptions on a case-by-case basis if they determine that the candidate is truly talented and so desires to become a long-term master teacher.
